Please note that the current school fees cover accommodation, ICT, Library, medical, environmental, security, utility, internet, examination, laboratory, sports, orientation, matriculation as well as development levy.

In view of the above, the general public is encouraged to take advantage of this reduction in school fees and register their children/wards into the University in order to enjoy the state-of-the-art infrastructure and other facilities available for training of students.

Admissions for 2022/2023 academic session has commenced. Candidates who scored 140 and above in JAMB and have requisite WAEC/NECO results are qualified to apply for admission into any of the

programmes. Candidates who did not initially choose the University as their first choice but scored 140 and above in JAMB are encouraged to do a change of institution on JAMB Portal to make the University their first choice, and apply for admissions.

Candidates who did not write JAMB at all but wish to study in the University can apply into the **Interim Joint Matriculation Board (IJMB) programme** of the University. The IJMB programme is for a period of one year, after which, the candidate will be admitted directly into 200 level without writing JAMB. Our pre-degree programme has been designed to provide additional opportunity for candidates to access alternative measures for admission into the University.

The University is also accepting students from other accredited universities who wish to transfer from their current universities to our university. Such students must have completed one academic session from his/her current university with evidence of official academic transcript.

Information on how to obtain any of the admission forms including payments for inter-university transfer is available on the University website: www.kdums.edu.ng. For more information/enquiries please contact 08033711002, 08085583359 or 08037530050.
